TEEN TIME

Fun and Free SUMMER ACTIVITIES

Summer is finally here and the fun is just beginning! But don't let all this extra time bust any family budgets! There are plenty of ways to save during the summer including these fun and free activities listed below:

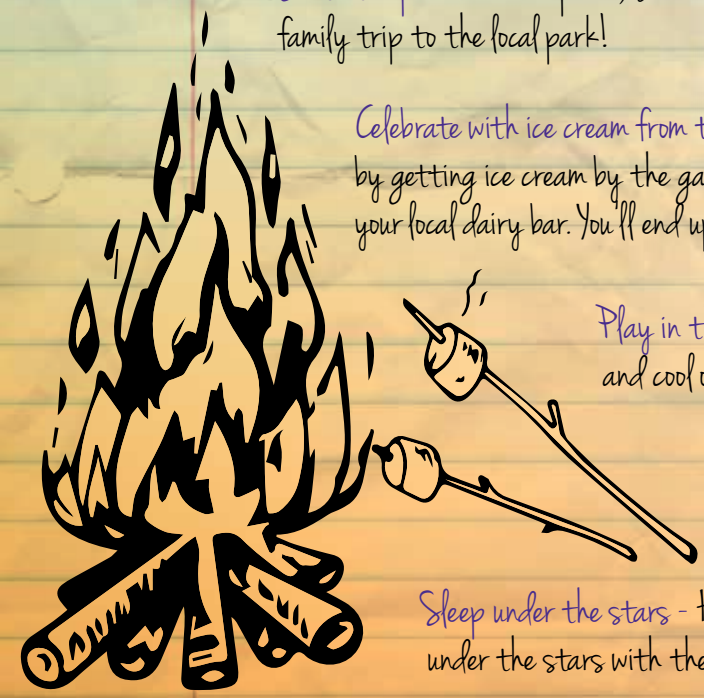

Go to the park - Take a picnic, some kites, and enjoy the outdoors with a family trip to the local park!

Celebrate with ice cream from the grocery store - You can come out cheaper by getting ice cream by the gallon at the store than you could by visiting your local dairy bar. You'll end up with more that way, too!

Play in the sprinklers - Hook up a \$20 sprinkler system and cool off in your own backyard!

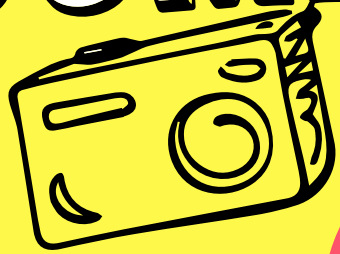

Make popsicles - Pour some juice into ice trays, or cups, and add a spoon for a handle.

Sleep under the stars - Have a campfire, roast some smores, and sleep under the stars with the indoors only being feet away!

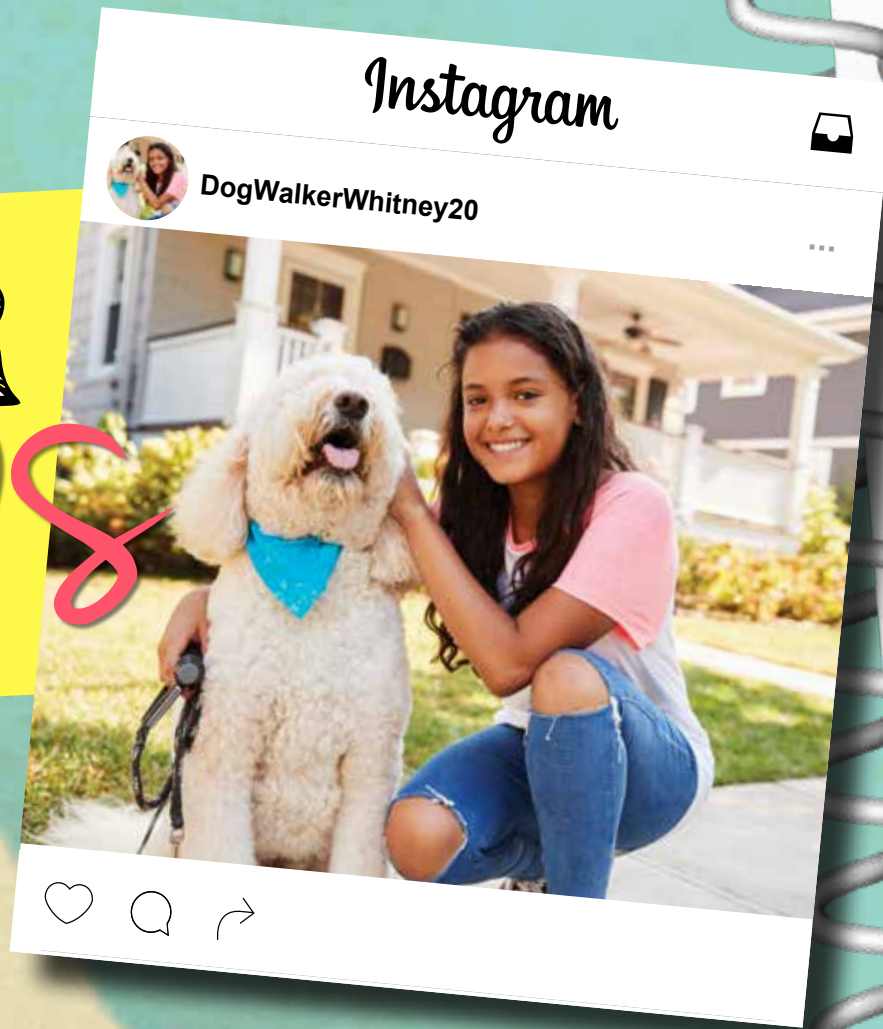

NEED CASH?

COOL SUMMER

HELLO SUMMER!

Beat the heat
AND MAKE GOOD CHOICES
WITH YOUR MONEY!

Financial decisions almost always involve some type of trade off. Getting something now usually means giving up something else. But like we already said on the front cover, just because you're saving money doesn't mean you can't have fun!

Use the code "TEEN" to log into Mapping Your Future online and complete the Choices About Money course. In this course you'll learn about making choices with your money, learn about your financial values, and you'll even set some financial goals.

Visit <https://learn.mappingyourfuture.com> to log in!
